

Space Challenge Achievement Badge Chart

Name: _____

Partner(s): _____

You'll get a bag for completing each Mission Challenge. **Before attempting each mission, you'll submit your Analysis, Design, and Development Documentation in Content Manager or in your Engineering Design Notebook.** There are four levels of badges, so you always know how well you did in each Challenge.

If you don't complete the mission the first time around, you can always try the mission again. Don't forget that time is limited. Would you be better off tackling the mission again, or moving on? It's up to you!

	Analysis	Design	Develop-ment	Complete Mission	Notes
Active Communications					
Assemble Your Crew					
Free the MSL Robot					
Launch the Satellite into Orbit					
Return the Rock Samples					
Secure the Power Supply					
Initiate Launch
